OBJECTIVE

Full-stack engineer with 1+ years of experience, passionate about building scalable, AI-integrated web applications. Seeking a product-focused role to solve complex user problems and learn the design and development of production-grade products.

EXPERIENCE

Full-stack Developer Jun 2025 - Present
Devkind *Melbourne, Victoria, AU (Remote)*

- Built a plug-and-play checkout for Swell stores using Cloudflare KV, Easyblocks, and NextJS, featuring a no-code editor for UI customisation.
- Optimised the core checkout logic from 3 steps to 1, reducing friction and increasing completion rates by approximately 35%.
- Delivered 6+ client projects end-to-end, managing design, backend, frontend implementation, and deployment.
- Mentored an intern through code reviews and task delegation to ensure timely and effective task completion.

Developer Intern Mar 2025 - Jun 2025
Devkind *Melbourne, Victoria, AU (Remote)*

- Reworked a legacy website with a modern, sleek design, improving SEO and UX, which directly increased organic traffic, sales leads and decreased paint time from 172 ms to 30 ms.
- Standardised AI usage by creating a database of specialised prompts, reducing API token costs by 30%, and ensuring code consistency.
- Automated marketing workflows using N8N and Slack, saving the team 10+ hours of manual work weekly.

Full-stack Freelance Developer Nov 2024 - Apr 2025
Samiullah Arif Enterprises SAE *Sukkur, Sindh, PK (Remote)*

- Built a custom invoicing system using Django Ninja and NextJS that had processed over 20,000,000 PKR in transactions.
- Iterated on the product based on real-time client feedback to handle different scenarios and 4+ new feature requests.

SKILLS

Languages	JavaScript, TypeScript, Python, C, C++, SQL, PHP, Elixir
Databases	PostgreSQL, MySQL, SQLite
